EVER DREAMT OF...

HAVING A JOB THAT WORKS AROUND YOU?

MAKING UP YOUR OWN WORKING HOURS?

HAVING NO LIMIT ON WHAT YOU CAN EARN?

GAINING A SKILL SET THAT WILL ALLOW YOU TO WORK FROM ANYWHERE IN THE WORLD?

CHANGING PEOPLES LIVES FOR THE BETTER?

Lip blush is a semi-permanent cosmetic tattooing technique designed to enhance the natural colour and shape of the lips

Lip blush provides a subtle tint that enhances the natural colour of your lips, giving them a fuller and more defined appearance without looking overly done.

Unlike traditional lipsticks that wear off throughout the day, lip blush can last anywhere from 1 to 3 years, depending on skin type and care, making it a convenient option for those who want to save time on their makeup routine.

The procedure allows for a wide range of colours that can be customized to match your skin tone and personal preferences, ensuring a unique look.

Lip blush can be used to correct asymmetry and define the lip borders, which can help create a more balanced and attractive lip shape. Since the colour is tattooed onto the lips, you won't have to worry about your lip colour smudging or fading throughout the day. The recovery period is relatively short, with most people experiencing only minor swelling and some peeling, making it a low-maintenance option for beauty enhancement.
